1 What is Boses?

Boses (Filipino for *Voice*) is a free voice-first banking assistant designed for elderly Filipinos and Persons with Disabilities (PWDs). Instead of navigating complex menus or reading small text, you simply **speak naturally** — in Tagalog or English — and Boses responds.

Key Features

Feature	What it does
??? Voice Commands	Check balance, transfer money, pay bills — all by speaking
?? Voice Biometrics	Your voice is your password — no PINs to remember
??? Guardian Protection	Family member is notified before any large transaction
?? Scam Detection	AI detects suspicious calls and warns you instantly
?? Hands-Free Mode	Continuous voice loop — no screen tapping needed at all
?? Bilingual	Switch between Filipino (Tagalog) and English any time
? Accessibility	All features usable without reading or fine motor control
?? Offline Fallback	Basic voice functions still work without internet

?? Who is Boses for?

Senior citizens (60+), Persons with Disabilities, and anyone who finds banking apps difficult to use. No smartphone experience required.

2

Getting Started & First Launch

Step 1 — Choose Your Language

When you open Boses for the first time, you will see a language selection screen. Tap **Filipino** or **English** — you can change this later at any time.

Step 2 — Onboarding

1. Enter your **full name** and **phone number**.
2. Select whether you are a **Senior Citizen**, a **Person with Disability (PWD)**, or both.
3. If PWD, select your disability type (visual, hearing, mobility, etc.).
4. Optionally enter your **PWD ID** or **Senior Citizen ID** number.
5. Add a **Guardian contact** — a trusted family member who will receive scam alerts and high-value transaction approvals.
6. Register your voice (see Section 8). You can skip and do this later.

?? Microphone Permission

Boses needs access to your microphone to hear your voice. When prompted, tap **Allow**. If you accidentally tapped **Deny**, go to **Settings ? Privacy ? Microphone** and enable it for Boses.

Requirements

Item	Requirement
Device	Windows 10/11 PC, Android phone, iPhone, or iPad
Internet	Recommended for best voice quality; works offline with limited features
Microphone	Built-in or external microphone
Cost	Free

3

Understanding the Main Screen

Header Area (Top)

Element	Description
?? Boses	App title
Welcome, [Name]	Shows your registered name
Status message	Shows what the app is doing (listening, thinking, speaking...)
?? Filipino / English button	Tap to switch language instantly
SIM MODE pill (orange)	Visible when the app is in demo/simulation mode
??? N alerts badge (red)	Shows how many guardian alerts were sent today

Quick Action Buttons (Middle)

Coloured buttons that send a preset voice command with one tap — no speaking needed. See **Section 5** for the full list.

Conversation Window

Everything you say and every response from Boses appears here as a chat. A ? red bar marks your messages; a ? green bar marks Boses's replies.

Bottom Controls

Control	Action
??? Clear button (left)	Clears the conversation history
?? / ?? Big round mic (center)	Tap once to start listening; tap again to stop and get a reply
?? Mode button (right)	Toggles between Simulation (demo) and Live mode

?? Simulation Mode

When the orange **SIM MODE** badge is visible, Boses uses simulated banking data. This is safe for practising. To use real banking data, tap **?? Mode** to switch to Live mode.

4

Speaking to Boses — Voice Commands

Tap the big ?? microphone button, wait for "*Listening...*", then speak naturally. You do not need to use exact words — Boses understands natural Tagalog and English.

?? Balance and Account

Say this (Tagalog)	Say this (English)
Magkano ang balance ko?	What is my balance?
Ano ang laman ng aking account?	Show my account
Ipakita ang account information ko	Account details please

?? Transfer and Send Money

Say this	What happens
Mag-transfer ng 500 pesos kay Juan	Starts a bank transfer of ₱500 to Juan
Ipadala ang 1000 pesos kay Maria	Same — sends ₱1,000 to Maria
Mag-send ng 300 pesos sa GCash	Sends ₱300 to your GCash wallet
I-send ang 500 pesos sa Maya	Sends ₱500 to Maya e-wallet
Transfer 1000 pesos to Maria	English equivalent

?? Large Transfers (over ₱5,000)

Any transfer above ₱5,000 automatically triggers a Guardian verification. Your registered guardian will receive a notification and must approve before the transfer proceeds.

?? Withdraw / ATM

Say this	What happens
Mag-withdraw ng 2000 pesos	Shows ATM guide and available balance

Gusto kong mag-withdraw mula sa ATM	Same without amount — Boses asks how much
Cash out ng 1500 pesos	Alternative phrasing

?? Bill Payment

Say this	Billers detected
Bayaran ang Meralco bill ng 850 pesos	Meralco (electricity)
Mag-bayad ng Maynilad tubig	Maynilad (water)
Bayad ng PLDT internet	PLDT (internet)
Bayaran ang SSS contribution	SSS
PhilHealth bayad	PhilHealth
Pag-IBIG contribution ko	Pag-IBIG

?? Transaction History

Say this	What you get
Ano ang mga recent transactions ko?	Last 5 transactions
Ipakita ang kasaysayan ng transaksyon	Transaction history
Show my recent transactions	English equivalent

?? Loan Inquiry

Say this	What you get
Magkano ang pwede ko pang i-loan?	Eligible loan products and amounts
Gusto kong mag-apply ng personal loan	Personal loan information
Putang naman	Same in casual Tagalog

?? Emergency — Lost or Stolen Card

Say this	Action
----------	--------

I-block ang aking card	Emergency card block instructions + hotline
Nawala ang aking ATM card	Lost card guidance
Ninakaw ang aking account	Stolen account response + security alert

?? Help and Navigation

Say this	Response
Tulong / Help	Full numbered command menu
Ano ang kaya mong gawin?	List of capabilities
Kumusta Boses!	Greeting and introduction
Kausapin ang agent	Connect to live support
Stop / Itigil	Stop listening or exit Hands-Free mode

5

Quick Action Buttons

These buttons send a preset voice command instantly — no microphone tap needed. They are grouped into three rows.

Row A — Banking

?? Balance

?? Transactions

?? Transfer

?? Withdraw

?? GCash

?? Bills

?? Loan

Button	Command sent
?? Balance	Magkano ang balance ko?
?? Transactions	Ano ang mga recent transactions ko?
?? Transfer	Mag-transfer ng 1000 pesos kay Maria
?? Withdraw	Mag-withdraw ng 2000 pesos
?? GCash	Mag-send ng 500 pesos sa GCash
?? Bills	Bayaran ang Meralco bill ng 850 pesos
?? Loan	Magkano ang pwede ko pang i-loan?

Row B — Discounts and Emergency

? PWD Discount

?? Senior Discount

?? Block Card

?? Help

Button	Who sees it	Command sent
? PWD Discount	PWD users only	PWD discount para sa 1000 pesos na gamot
?? Senior Discount	Everyone	Senior discount para sa 500 pesos na pagkain
?? Block Card	Everyone	Nawala ang aking ATM card
?? Help	Everyone	Tulong

Row C — Special Features

?? Register Voice

?? Scam Detection Demo

?? Hands-Free: ON/OFF

Button	What it does
?? Register Voice	Opens the voice biometric enrollment page
?? Scam Detection Demo	Runs a simulated scam call and shows the AI analysis
?? Hands-Free	Toggles continuous voice loop — no taps needed (see Section 6)

6 Hands-Free Mode

Hands-Free mode is designed for users who cannot easily tap the screen. Once enabled, Boses listens, responds, and restarts automatically — with no screen interaction needed.

How to Start

1. Tap the ?? **Hands-Free** button. It turns green and the label changes to ?? **Hands-Free: ON**.
2. Boses says *"Hands-free mode on. I'm listening."*
3. The microphone opens automatically. Speak your command.
4. Boses processes your command and speaks the reply aloud.
5. The microphone reopens automatically for the next command.

How to Stop

Say any of these words out loud:

Stop

Itigil

Tigilan

Hinto

Exit

Or tap the ?? **Hands-Free** button again.

?? Best for elderly and PWD users

Place your phone or tablet on a stand, enable Hands-Free mode, and use Boses entirely by voice — no touching the screen at all. Each listening window is up to 8 seconds long.

?? Automatic timeout

If no speech is detected within 8 seconds, Boses restarts the microphone and listens again. It will keep doing this until you say "Stop."

7 Guardian Anti-Scam Protection

Boses automatically protects you against scams in two ways:

1. High-Value Transaction Verification

Any transfer, withdrawal, or bill payment exceeding **₱5,000** triggers a Guardian alert.

1. You say a high-value command (e.g., *"Mag-transfer ng 10,000 pesos"*).
2. Boses generates a one-time verification code and sends it to your guardian via Telegram or SMS.
3. Your guardian approves or rejects the transaction.
4. The transaction only proceeds after guardian approval.

2. Scam Call Detection

Tap **?? Scam Detection Demo** to run the AI scam detector. Boses checks for six types of scam patterns:

Scam Type	Example
OTP Harvesting	"Share the OTP sent to your phone"
Bank Impersonation	"I am from BDO Customer Service"
Urgency / Threats	"Your account will be suspended in 24 hours"
Prize / Lottery	"You won ₱50,000 — pay a processing fee to claim"
Remote Access	"Download AnyDesk so we can fix your phone"
Credential Phishing	"Verify your account number and password"

?? Remember

Your real bank will **NEVER** ask for your OTP, password, or PIN over the phone. If anyone asks for these, hang up immediately and call your bank's official hotline.

Viewing Guardian Alerts

The **??? N alerts** badge in the header shows how many guardian alerts were sent today. Your guardian receives each alert as a Telegram message in real time.

Voice Registration and Biometric Authentication

Registering your voice lets Boses confirm your identity for sensitive transactions — no PIN or password needed.

How to Register Your Voice

1. Tap ?? **Register Voice** on the main screen.
2. Read the phrase shown on screen when prompted. Example: *"My voice is my password."*
3. Boses records three samples of your voice.
4. A checkmark appears when each sample is accepted.
5. After three successful samples, tap **Complete Registration**.

?? Tips for best results

- Speak at a normal pace in a quiet room.
- Hold the device 20–30 cm from your mouth.
- Say the full phrase — do not cut words short.
- Repeat up to 3 times if a sample is rejected.

How Authentication Works

When you make a sensitive transaction, Boses asks you to speak a phrase. Your voice is compared to your saved voice print using an 85% similarity threshold. If it does not match, you are prompted to try again or contact support.

?? Voice data stays on your device

Your voice print is stored only on your device in encrypted form. It is never sent to any server.

Switching Language — Filipino / English

Boses supports **Filipino (Tagalog)** and **English**. You can switch at any time while using the app.

How to Switch

Tap the ?? **Filipino** or ?? **English** button in the header. The button label shows which language you will *switch to* (not the current one).

- All button labels update instantly.
- Boses speaks a short confirmation in the new language.
- The microphone starts listening in the new language.
- AI responses are delivered in the selected language.

?? Mixing languages

You can mix Tagalog and English in the same sentence — Boses understands Taglish.

Example: `Check my balance please, salamat`

10 PWD and Senior Citizen Discounts

Boses calculates government-mandated discounts for PWDs and Senior Citizens.

PWD Discount

Item	Discount	Voice Command
Medicine / Botika	20%	PWD discount para sa 1000 pesos na gamot
Food / Pagkain	5%	PWD discount para sa 500 pesos
Other items	5%	Kalkulahin ang PWD discount para sa 800 pesos

Senior Citizen Discount

Item	Discount	Voice Command
Food at restaurant	20%	Senior discount para sa 500 pesos na pagkain
Medicine	20%	Senior discount sa 800 pesos na gamot
Other items	5%	Senior citizen discount para sa 300 pesos

?? Bring your ID

Remember to show your PWD ID or Senior Citizen ID to the cashier to claim the discount. Boses calculates the amount — the cashier applies it.

11 Troubleshooting

Problem	Solution
Boses does not hear me	Check that the microphone is not muted. Go to Settings ? Privacy ? Microphone and make sure Boses has permission. Speak closer to the device.
Voice not recognised correctly	Speak slowly and clearly. Reduce background noise. Try using the Quick Action buttons instead.
No sound / Boses does not speak	Check your device volume. Make sure the speaker is not covered. Restart the app.
App is stuck on "Thinking..."	Check your internet connection. Tap the ??? Clear button and try again.
Guardian alert not received	Make sure your guardian's Telegram or phone number is correct in your profile. Check their spam folder.
Voice registration keeps failing	Speak louder and more clearly. Try in a quieter room. Make sure you say the full phrase shown on screen.
Buttons show in wrong language	Tap the ?? language button in the header to toggle back to your preferred language.
App shows "SIM MODE" badge	The app is in demo mode. Tap ?? Mode button to switch to Live mode for real banking data.

Reset the App

If Boses behaves unexpectedly, you can reset by deleting the local database:

?? Warning — this deletes your profile

Resetting will remove your voice registration and profile. You will need to go through onboarding again. Only do this if instructed by support.

12

Privacy and Security

Data	Where stored	Who can see it
Your name and phone number	On your device (encrypted SQLite)	You only
Voice biometric print	On your device only — never uploaded	You only
Conversation history	On your device only	You only
Guardian alerts	Sent via Telegram/SMS to your guardian	You and your guardian
Banking data	Fetches from your bank in real time — not stored	You only

Security Tips

- Never share your voice registration phrase with anyone.
- Do not let others use Boses while logged in as you.
- Your bank will never ask for your OTP or password through any app or call.
- Always verify unexpected guardian alerts by calling your guardian directly.
- Keep the app updated to receive the latest security fixes.
