- Your guardian receives a Telegram or SMS notification
- The transaction only proceeds after guardian confirms
- Scam messages are automatically detected and flagged

- OTP harvesting attempts
- Bank impersonation calls
- Prize and lottery scams
- Remote access requests
- Urgency and threat tactics

Remember: Your real bank will NEVER ask for your OTP, password, or card number.

7. Discount Calculators

PWD Discount (Republic Act 9442)

- 20% discount on medicine and medical supplies
- 5% discount on food, clothing, and other products

Example:

Say: 'PWD discount para sa 1000 pesos na gamot'

Senior Citizen Discount (Republic Act 9994)

- 20% discount on food at restaurants
- 20% discount on medicine and medical services
- 5% discount on other goods and services

Example:

Say: 'Senior discount para sa 500 pesos na pagkain'

Result: PHP 500 - PHP 100 (20%) = PHP 400

Reminder: Always present your PWD ID or Senior Citizen ID to the cashier.

- Your name and profile are stored only on your device — encrypted
- Your voice biometric is never uploaded to any server
- Conversation history stays on your device only
- Banking data is fetched in real-time — never stored
- Guardian alerts are sent only to your designated contact

Security Tips

- Never share your voice registration phrase with anyone

- Keep the app updated to receive the latest security fixes

9. Troubleshooting

Microphone not working

- Go to Settings -> Privacy -> Microphone and ensure access is ON
- Ensure your default microphone is set in Sound settings
- Restart the app and try again

Boses not understanding my command

- Speak clearly and at normal speed
- Reduce background noise
- Use the Quick Action buttons as an alternative
- Try rephrasing — e.g. 'balance' instead of 'pera ko'

App starts slowly

- First launch may take 10-15 seconds while AI initialises
- Subsequent launches are faster

Reset the app

Warning: Resetting deletes your voice registration and profile. Only do this if instructed by support.
